### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas E. Brown (44,450) on June 18, 2003.

The application has been amended as follows:

(a) In claim 8, delete "so as to fix" and add - - connecting - -, line 4-5, and delete "for containing the solder bump", line 7.

(b) Cancel claims 10-15, not elected without traverse.

2. The following is an examiner's statement of reasons for allowance:

A printed circuit board unit connecting a printed circuit board with an electronic component with an interposer disposed in between with a through hole in the interposer,

wherein the through hole with coating on internal wall in contact with the solder bump, as shown by Tsunoi, US Patent No. 6,429,516 or

through hole without coating, having internal surface of the through hole in the interposer not touching the solder bump, as shown by Ellerson et al., US Patent No. 5,859,470, are known.

However, printed circuit board unit, with the through hole in the interposer coated with material wet to solder, but not contacting the solder bump, spaced away from the bump, when assembled, as shown in figure 18 and enabled by the disclosure, has not been taught or disclosed by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
